PROFESSIONAL SUMMARY

Business Analytics graduate student with 1+ year of industry experience in enterprise data processing and automation at Accenture. Proficient in Python, SQL, Power BI, and machine learning. Experienced in building BI dashboards, predictive models, and geospatial analytics pipelines. Co-founder of AroundU, a live campus social networking platform. Available July 2026.

EDUCATION

M.S. Business Analytics & Information Management Aug 2024 – May 2026
Western New England University, Springfield, MA **GPA: 3.9/4.0**

B.Tech Electronics & Communication Engineering Aug 2019 – Jul 2023
ACE Engineering College, Hyderabad, India

PROFESSIONAL EXPERIENCE

Associate Software Engineer | *Accenture Solutions Pvt. Ltd., India* Sep 2023 – Jul 2024

- Developed and automated ETL batch processing pipelines on enterprise mainframe systems using COBOL and JCL, supporting 10,000+ daily transactions.
- Improved operational efficiency through workflow automation and system optimization using IBM IDz, ensuring consistent pipeline reliability across production environments.
- Collaborated with cross-functional stakeholders to translate business requirements into scalable, production-grade data processing solutions.

Research Assistant — RISC-V Systems Lab | *Western New England University* Oct 2025 – Present

- Configuring Linux-based RISC-V FPGA lab environment; resolving Xilinx ISE 14.7 toolchain conflicts on Ubuntu and enabling FPGA board programming via USB driver configuration.

Co-Founder & Campus Growth Lead | *AroundU | aroundu.me* Sep 2025 – Present

- Co-founded a full-stack social networking platform for verified college students with real-time campus feed, marketplace, and professor booking system.
- Driving campus adoption by engaging 5+ student clubs and conducting structured feedback sessions with 10+ faculty to guide product development.

PROJECTS

ML-Powered Walmart Neighborhood Market Expansion Locator *[Ongoing]*

- Building a multi-stage ML pipeline (Random Forest, XGBoost, Cluster Analysis) using 4+ public datasets across 3,000+ US counties to identify optimal food desert expansion locations.

Multi-Label NLP Topic Classifier for Academic Research Papers

- Built TF-IDF + Logistic Regression baseline then fine-tuned SciBERT transformer; evaluated with Micro/Macro F1 and Hamming Loss across 10+ topic categories.

Additional: Power BI Student Enrollment Dashboard (DAX, Power Query) | Amazon Stock & Global Events Analysis (SQL, SAP Analytics) | Supermarket Database Management System (SQL, DB2)

TECHNICAL SKILLS

Programming & Data: Python, R, SQL, COBOL, VHDL

BI & Visualization: Power BI, Tableau, SAP Analytics Cloud, SAP Lumira, Crystal Reports

Machine Learning: NLP, Statistical Analysis, Predictive Modeling

Databases & Systems: DB2, PostgreSQL, JCL, IBM IDz, Linux (Ubuntu), FPGA

Tools: UiPath Studio, Excel

Certification: Microsoft Power BI Data Analyst PL-300 (In Progress)
